SHRED SKATEBOARDS

Shred Skateboards is an ecommerce platform that lets participants engage in cybersecurity challenges such as injection, password cracking, sensitive data exposure, parameter tampering, cryptography, and more.

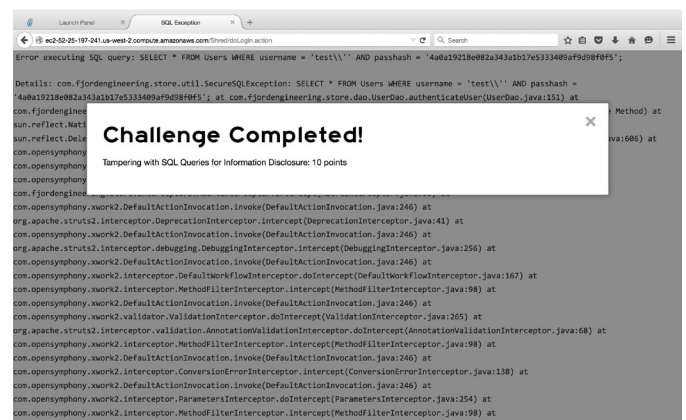

INCLUDES

- Over a dozen vulnerability types
- 35 total challenges
- Challenges appropriate for all roles and experience levels

BACKSTORY

Shred Skateboards is your one-stop shop for skateboards, spray paint, stencils, and all the other trappings of hooliganism. Post a review, change account credentials, show off your best work in the graffiti gallery, and buy or redeem a gift card for the petty criminal in your life.

Shred Skateboards at-a-glance

STORYLINE	This ecommerce service lets players buy items in an unintended way, crack passwords, tamper with other user's functionality, steal data, and conduct other nefarious acts.
EXPERIENCE LEVEL	Core
APPLICATION TYPE	Ecommerce Platform
TIME CONSTRAINT	Full day or longer, Proctor required
ENVIRONMENT	Traditional web; multiple, single-page applications
NUMBER AND DIFFICULTY OF CHALLENGES	<ul style="list-style-type: none">• 35 challenges• Approximately 40% East / 40% Intermediate / 20% Difficult
TARGET ROLES	<ul style="list-style-type: none">• Developers• Application security testers• Security Champions• Wide range of SDLC roles
KNOWLEDGE/ TOOLS REQUIRED	No special knowledge or tools required
SKILLS GAINED	<ul style="list-style-type: none">• How vulnerabilities work in a realistic environment• Real-world implications of insecure applications• Restricting access to sensitive data• Preventing fraudulent transactions
HIGHLIGHTED CHALLENGE TYPES	<ul style="list-style-type: none">• Weak cryptography• SQL injection• Parameter tampering• Denial of service• XSS• Broken access control• Business logic flaws• And more!

ABOUT CMD+CTRL SECURITY

CMD+CTRL Security is a pioneer in software security training. For over two decades, organizations of all sizes, from mid-sized to Global 100 companies, have relied on our training solutions to transform their software security. Our role-based modules, skill labs, and hands-on cyber ranges are designed to build skills that stick. Visit cmdntrlsecurity.com to learn how we can help you launch a best-in-class training program.
