

Base Camp Skills Development Platform

cmd+ctrl

BUILD SKILLS THAT STICK

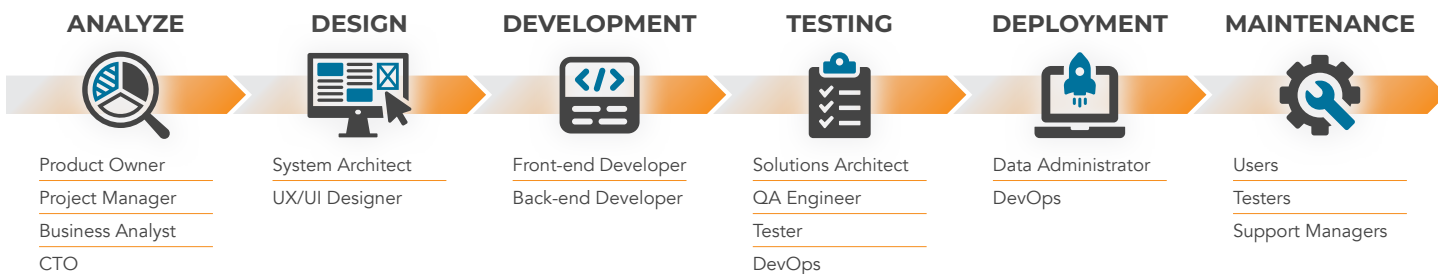

Training the people who create and deploy software in how to do it securely, is essential to reduce risk and maintain compliance. The Base Camp training platform from CMD+CTRL combines micromodules, labs, and realistic application environments to build skills that stick.

- ✓ **Role-based** – turnkey paths for all major roles and technologies
- ✓ **Multiple modalities** – courses, hands-on labs and realistic simulations increase engagement and ingrain new knowledge and behavior
- ✓ **Realistic simulation** – On-the-job scenarios, real technology, and real coding build contextual skills
- ✓ **Detailed insight** – baselining, assessments, and automated reports make it easy to track progress against KPIs

BROAD TECHNOLOGY COVERAGE

- **Dozens of Languages:** Java, .Net, C/C++, Python, Javascript and more
- **Artificial Intelligence**
- **Cloud & Web**
- **Mobile**
- **Blockchain & Applied Crypto**
- **IoT & Embedded**
- **DevSecOps**

TRAINING FOR EVERY ROLE AND STAGE, ACROSS THE SDLC

LEARN, PRACTICE, MASTER

COURSES

Base Camp provides 250+ interactive, engaging eLearning courses with exercises geared to all roles and skill levels across the SDLC, covering key languages, technologies, platforms, frameworks, compliance regimes and industry standards

LABS

125+ labs reinforce training and provide practical, guided scenarios

CYBER RANGES

11 individual ultra realistic ranges designed to inspire and challenge your entire team.

BASE CAMP PLATFORM FEATURES

Turnkey Platform - provides easy access to content and engaging features, including tailored role-specific journeys, ordered access to assignments, and certificates of completion suitable for showing off on social media.

SKILLS ASSESSMENT:

Learners can 'test out' of content to avoid training on topics they already know — saving time and reducing frustration. Program administrators can evaluate learner skills and fill gaps efficiently to optimize training time.

UP TO DATE:

Quarterly releases and regular updates ensure content is current with industry standards and new technology.

CUSTOMIZABLE JOURNEYS AND PATHWAYS:

Structured around key enterprise/learner goals (role, technology, language, standard) and objectives.

ANALYTICS:

Robust, flexible analytics and reporting helps track progress, demonstrate compliance, motivate underperformers, and deliver executive-level summaries.

NUDGES & NOTIFICATIONS:

Enhance learner engagement and increase course completion rates through personalized, timely, and relevant communication. Remind users about incomplete content, upcoming lessons, and key milestones to keep learners actively involved.

STANDARDS AND COMPLIANCE

Maintain compliance with regulations and industry standards throughout your software development process. Base Camp provides training to cover any compliance need including:

OWASP | PCI | NIST | GDPR | NICE | ISO | CWE | MITRE ATT&CK | MICROSOFT SDL

LEVEL UP YOUR SOFTWARE SECURITY

Uplevel your software security with more secure, resilient code. Whether you are empowering a security culture, prioritizing secure coding, or meeting compliance mandates, our solutions can help you transform your software security posture. We work with you to find the right combination of solutions to meet your organizational needs and execute a program that eliminates skills gaps, mitigates risk, achieves compliance and drives productivity.

ABOUT CMD+CTRL SECURITY

CMD+CTRL Security is a pioneer in software security training. For over two decades, organizations of all sizes, from mid-sized to Global 100 companies, have relied on our training solutions to transform their software security. Our role-based modules, skill labs, and hands-on cyber ranges are designed to build skills that stick. Visit cmdntrlsecurity.com to learn how we can help you launch a best-in-class training program.
